

# Going Green

## Overall Inns at Mill Falls

- Smoke Free.
- Energy Efficient Lighting throughout all areas of Inns.
- "Green" Paint Products used (low VOC).
- \$1.50 per room fee for local conservation fund.
- Recycle Bins available in public vending areas.
- Lake water used for irrigation system.
- Environmentally friendly snow/ice melting products used.
- Parking available to highlight hybrid vehicles.
- Light sensors in Public Restrooms along with re-fill-able soap dispensers.
- Part of the Structure of the Inns are the remains of a church that used to sit on this land. We also re-used a circa 1880 local barn as part of our pre-assembly area to our event spaces. Many antiques, including some windows and doors are dispersed throughout the Inns.
- Products made from recycled goods purchased whenever possible.
- Employee Green Team committed to ongoing efforts.

## Meetings/Events

- Refillable Water Pitchers used versus bottled water.
- Linen napkins used with all meal services.
- Access to outdoor green space.
- Local, organically grown produce used as much as possible in season. Chef grown herb garden on site.
- Other Green Friendly suggestions available should you wish to incorporate in to your event (recycled pens/pencils, reusable bottles, on line registration, etc.)

## Housekeeping

- Linen/towel re-use program

## Administrative/Sales Offices

- All client materials available on line or via a PDF document to reduce amount of materials that need to be printed and mailed.
- Most internal communication/distribution done electronically.
- Recycle bins are used in all offices.
- Post event critiques sent and responses recorded on line.
- Energy Star rated office equipment for all new purchases.

## Cascade Spa

- Serve filtered tap water in bio-recyclable cups.
- Only use Green-E certified organic products in body treatments. The company is 100% solar powered.
- Spa sheets are made with 100% recycled material
- All products are Paraben Free and Vegan based
- Skin care lines are plant based and not tested on animals.
- Nail care line is all vegan and eco-friendly. They use only biodegradable packing as well as soy ink.
- Refillable containers used in treatment rooms and locker rooms for amenities.
- Reporting is done electronically.

## Front Desk

- Biodegradable key cards
- e-mail confirmations
- e-mail customer satisfaction surveys
- internal systems revised to minimize wasteful printing
